(Coauthor: Senator De León)

January 28, 2016

An act to amend Section 8310.7 of the Government Code, relating to data collection.

LEGISLATIVE COUNSEL'S DIGEST

AB 1726, as amended, Bonta. Data collection.

Existing law requires any state agency, board, or commission that directly or by contract collects demographic data as to the ancestry or ethnic origin of Californians to use separate collection categories and tabulations for specified Asian groups and Pacific Islander groups, and requires a state agency, board, or commission to include data on specified collection categories and tabulations in every demographic report on ancestry or ethnic origins of California residents that it publishes or releases. Existing law requires specified agencies to use additional separate collection categories and other tabulations for major Asian groups and Native Hawaiian and other Pacific Islander groups, and also requires those agencies to take additional actions, including, among other things, posting, and annually updating, the demographic data collected on their Internet Web sites, and updating the reporting

categories to reflect these Asian and Pacific Islander groups as they are reported for the 2020 decennial census.

This bill would require the updating of the reporting categories for future decennial censuses. The bill would require the State Department of Public Health, the State Department of Health Care Services, the Board of Governors of the California Community Colleges, the Trustees of the California State University, and the Regents of the University of California to use the additional separate collection categories and other tabulations for specified Asian groups and Pacific Islander groups, and to take additional actions as specified above, under certain circumstances. The bill would not apply its categorization requirements to demographic data of graduate and professional schools of the University of California. The bill would be applicable to the University of California only if the Regents of the University of California, by resolution, make it applicable.

To the extent the bill would impose additional requirements on community colleges, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the ~~State~~, *state*, reimbursement for those costs shall be made pursuant to these statutory provisions.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: yes.

The people of the State of California do enact as follows:
